## Robust Reporting and Actionable Data

Informs targeted instruction and practice to master the standards.

## Measuring Up to the NY Next Generation Learning Standards

Bold new features support collaborative teaching and modeled instruction.

- Connect new learning to what students may already know.
- Emphasize academic vocabulary with Words to Know and Vocabulary in Action.
- Strengthen collaborative learning with Turn and Talk and Learning Together.
- Support Culturally Responsive Sustaining-Education Framework.
- Two independent practices in every lesson build competency for NY State Assessment.

Measuring Up New York Diagnostic  
Updated for 2022–23 NY Next Generation Learning Standards

Prepare students with two full-length diagnostics written to the NY State Standards.

Available  
in e-book  
format

# Measuring Up<sup>®</sup>

## Science

Quick, yet comprehensive NGSS coverage

Grades 4, 5, and middle school 6–8

### Lessons feature:

- Comprehensive NGSS-based science content with independent practice items that meet the rigor of the NGSS assessments.
- Building Stamina unit tests that check for student understanding.
- Hands-on activities, experiments, and investigations.

Each grade level covers a wide variety of scientific concepts including life, earth, and physical science.

#### Level D / Grade 4

- Structure, Function, and Information Processing
- Transferring Energy and Information
- Energy and Collisions
- Earth's Landscape
- Earth's Systems and Change

#### Level E / Grade 5

- Physical and Chemical Changes
- Energy and Matter
- Earth's Systems
- Space Systems

#### Level H / Grades 6

- Human Body Systems
- Reproduction and Growth
- Energy Transfer and Weather
- Climates and Human Impacts
- Properties of Matter
- Dynamic Interactions within Ecosystems
- Geologic Changes in the Earth
- Forces and Energy
- Energy in Waves
- Mechanisms of Diversity
- Changing Earth

Use these flexible worktexts to supplement your science curriculum, or to stand alone in a pull-out program.
