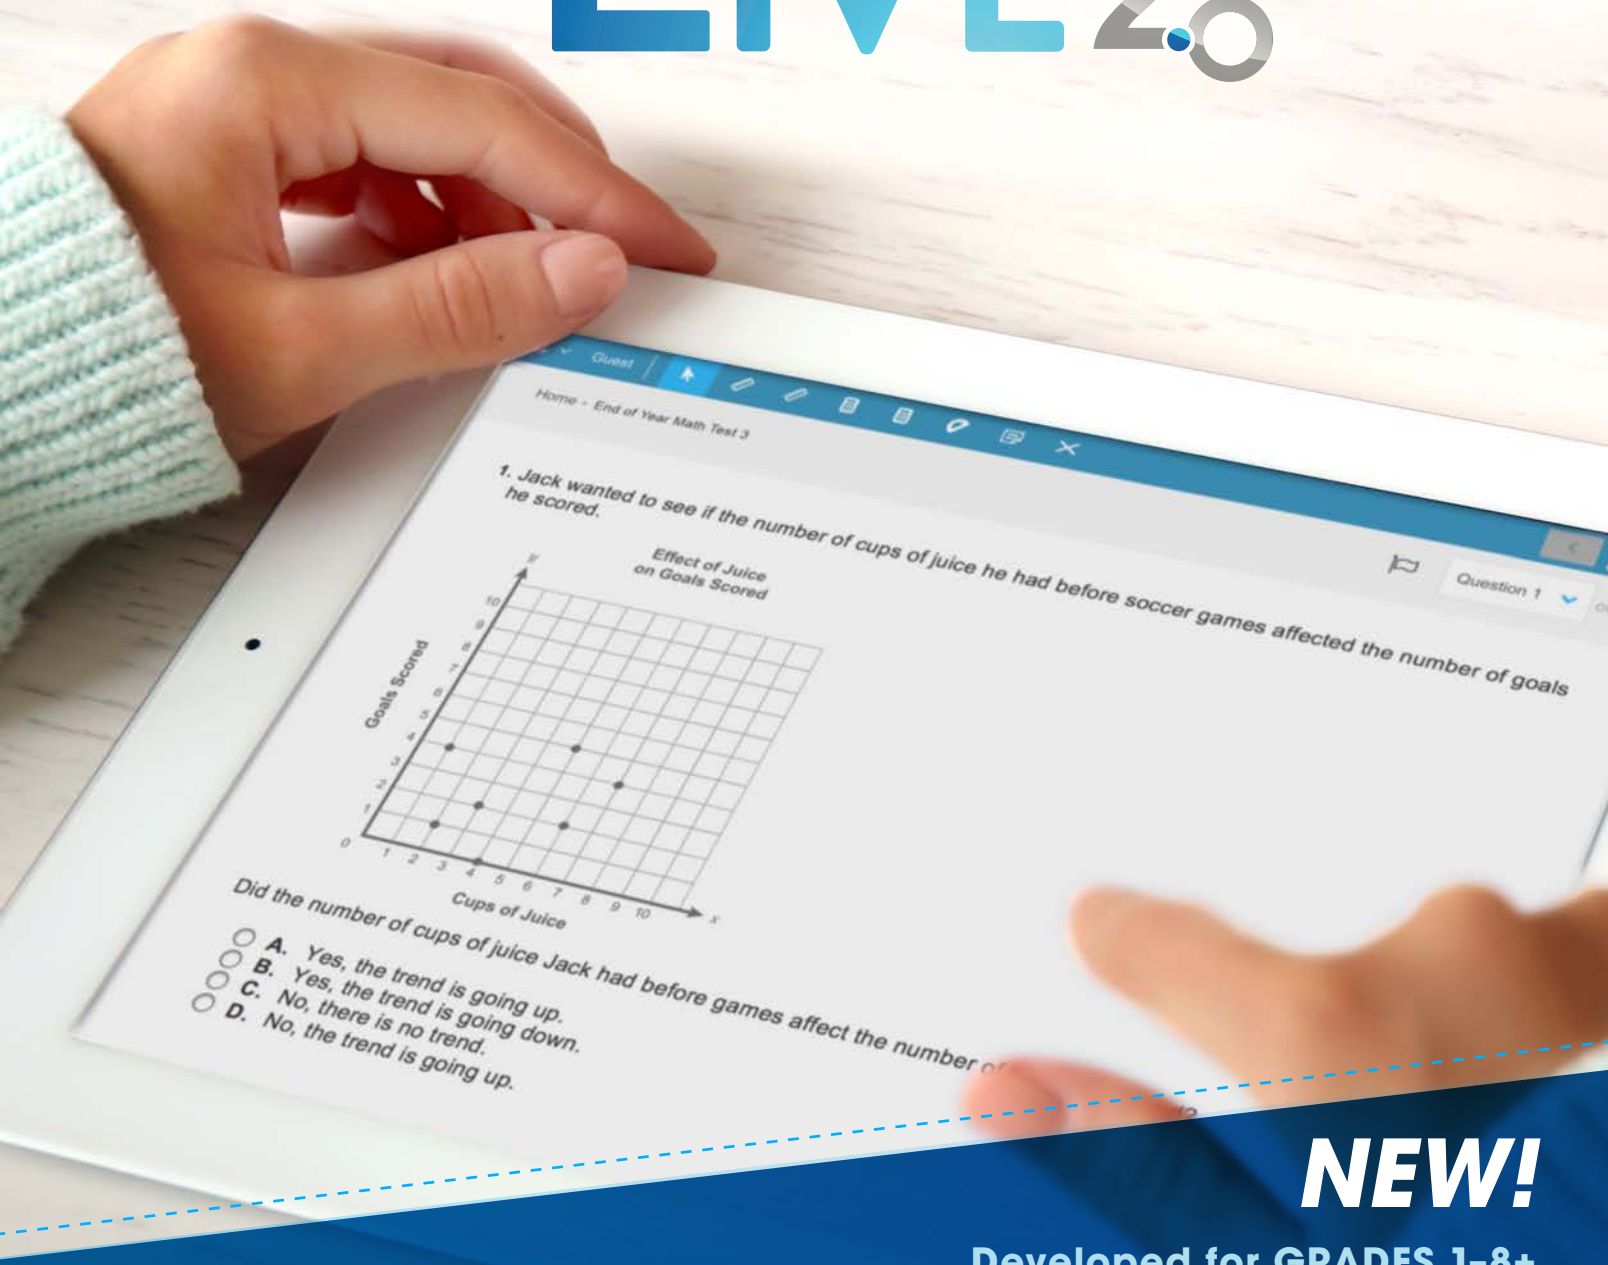
mastery education

DESIGNED FOR THE Texas ESSENTIAL KNOWLEDGE AND SKILLS

Measuring Up LIVE 2.0



NEW!

Developed for GRADES 1–8+

A Breakthrough **ASSESSMENT & PRACTICE** Program that Prepares All Students for the **STATE OF TEXAS ASSESSMENTS OF ACADEMIC READINESS**

mastery™
education

Prepare to Experience MASTERY

For more than 25 years, Mastery Education—formerly Peoples Education—has developed a unique, trusted partnership with more than 2,500 schools across Texas.

We've built our reputation by working directly with Texas educators and researchers to create products specially built to prepare students for the Texas Essential Skills and Knowledge (TEKS). The *Measuring Up* suite of print and digital programs enables students to master the TEKS and to prepare for the STAAR Assessments.

Now, with further research, educator feedback, and enhanced technology, we are thrilled to offer a more efficient, enjoyable, and dynamic solution...

Founded upon TEXAS EDUCATOR FEEDBACK...

INTRODUCING

Measuring Up LIVE 2.0

DESIGNED FOR TEXAS

The NEW innovative assessment and practice solution, expertly designed to offer data-driven instructional support to prepare all students for the STAAR Assessments.

Focused on STUDENT STAAR SUCCESS

LOWER THE PRESSURE, **INCREASE THE RESULTS!**

The Stakes are Higher Than Ever...

WHAT'S THE STRATEGY FOR STAAR SUCCESS?

In the age of high-stakes assessments, educators need resources that can evaluate student learning and prepare students for the rigorous expectations of both the Texas Essential Knowledge and Skills (TEKS) and the STAAR Assessments. *Measuring Up Live* 2.0 gives students essential practice and assessments designed to reduce anxiety and boost performance.

Customized, formative assessments **featuring 60,000+ TEKS-based questions** written specifically for Texas educators

Equipped with **actionable data reporting** to empower educators and drive instruction

Personalized, adaptive, and designed to **motivate**, **engage**, and **ensure student mastery** of the TEKS

Built for the rigor of the STAAR, the *Insight* Item Bank supports high-stakes practice in a low-stakes environment

SEAMLESS INTEGRATION, MAXIMUM RESULTS!

Measuring Up Live 2.0 is comprised of two separate programs seamlessly integrated into one effective assessment and practice solution, expertly designed to drive instruction and prepare your students for success on the STAAR. **Here's how:**

1. GETTING STARTED WITH *MEASURING UP LIVE* 2.0

Simply upload your student list and create your class roster(s).

OR

Just log on and explore the *Measuring Up Insight* Item Bank.

2. EXPLORE THE *INSIGHT* ITEM BANK

Explore more than 60,000 available test items and start building your assessment library. Customize or choose pre-created assessments, and set parameters before assigning tests to students.

3. EVALUATE RESULTS WITH REPORTING

Collect, analyze, and evaluate results with precision reporting tools and filters. Comprehensive reporting allows you to see where your students are struggling most so you can drive more effective instruction.

Students complete and submit assessments during your designated testing window. The results are compiled and recorded for evaluation.

Measuring Up insight

FOCUS & PINPOINT **ONGOING ASSESSMENT**

Measuring Up Insight is a **criterion-referenced assessment platform** that can be used for ongoing assessment throughout the year in a variety of ways, including:

- DIAGNOSTIC
- FORMATIVE
- BENCHMARKING
- SUMMATIVE
- PROGRESS-MONITORING

4.

TWO INTEGRATED PROGRAMS DELIVER **CONTINUOUS ASSESSMENT** AND **PRACTICE**

Measuring Up myQuest

ENGAGE & PROVIDE **TARGETED PRACTICE**

Measuring Up MyQuest is a **TEKS-based practice program** designed to meet students at their level with content that adapts based on their performance.

- ADAPTIVE
- FORMATIVE
- PERSONALIZED
- MOTIVATIONAL
- PRESCRIBED

Measuring Up insight ITEM BANK

PREPARE FOR THE STAAR WITH PRINT ONLY ACCESS TO THE ITEM BANK

- Over 60,000 test questions organized by TEKS and Student Expectation
- Standards aligned at the primary and secondary level
- Ability to edit and print your finished assessments

A SINGLE MANAGEMENT SYSTEM TO DRIVE INSTRUCTION

The **Educator Dashboard** features summaries of recent activities for schools or classes, opportunities for professional learning, and important data snapshots for individual classes across both *Insight* and *MyQuest*.

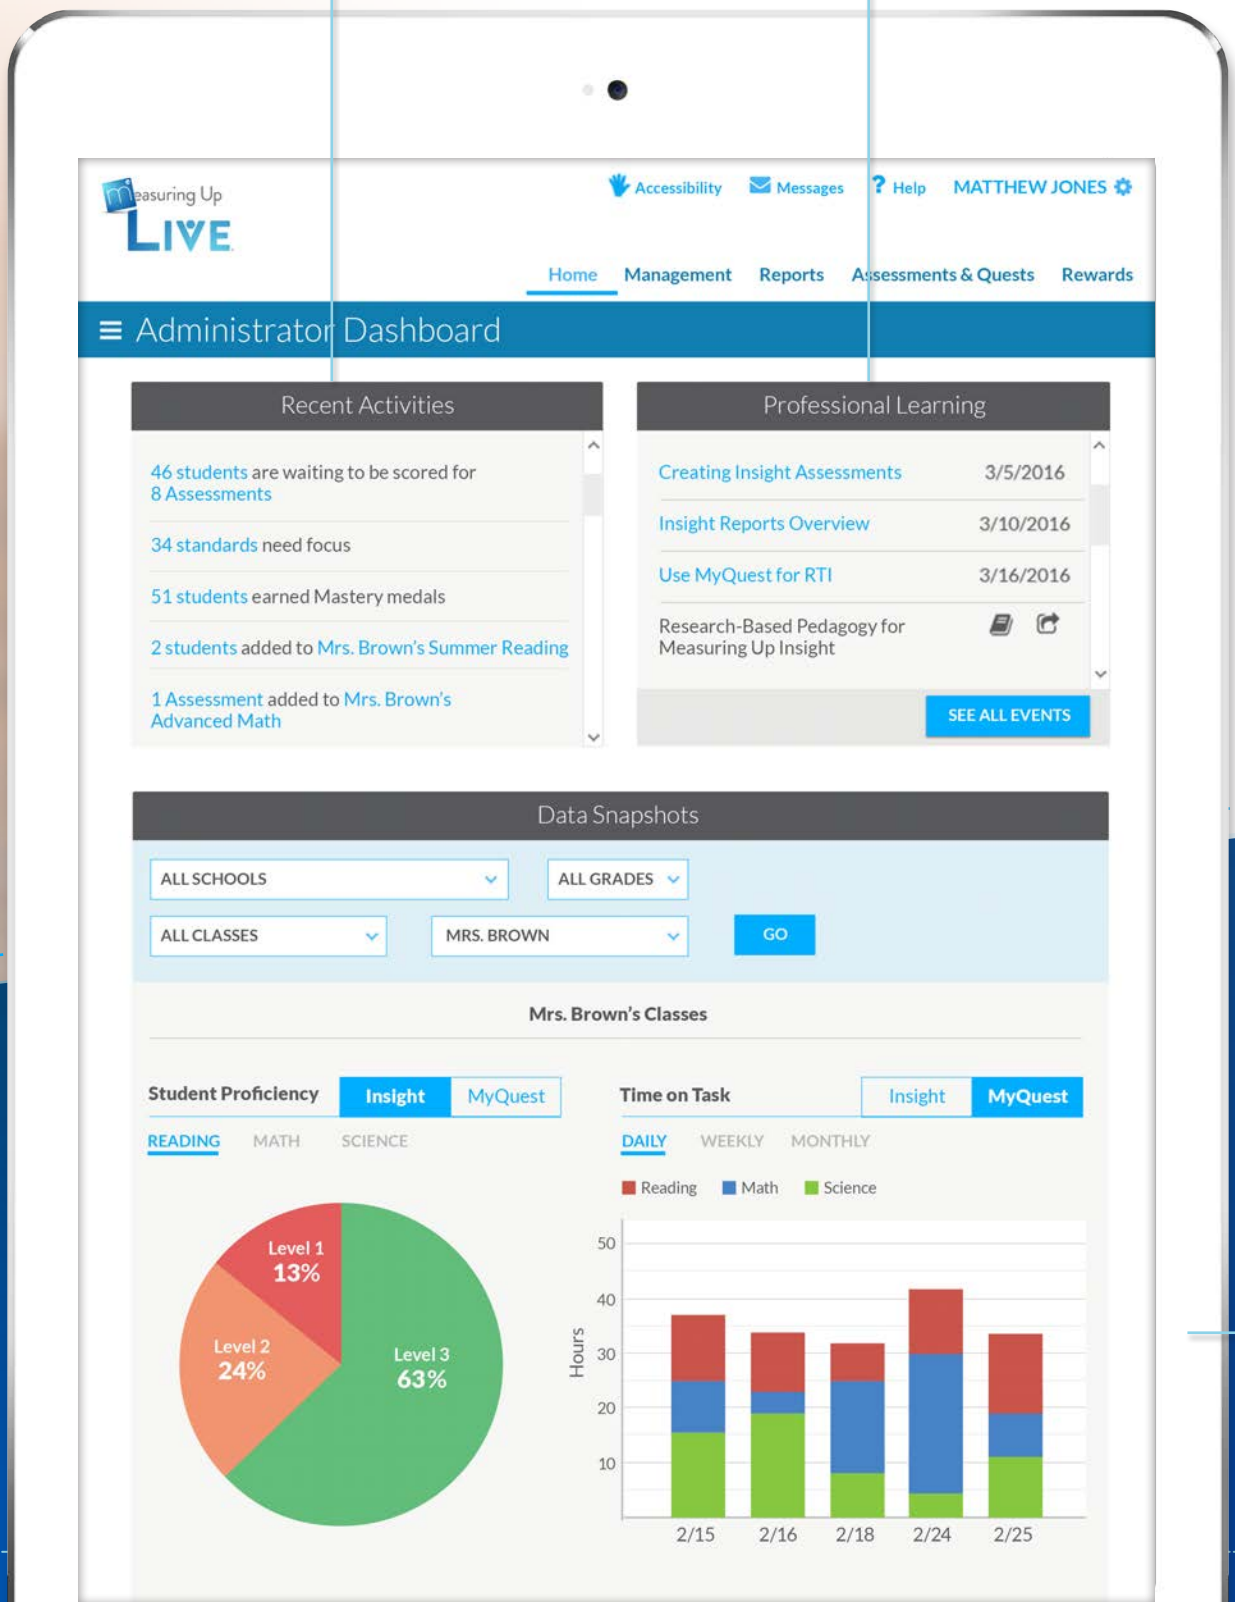
With *Measuring Up Live* 2.0, educators receive unparalleled access to student performance and program implementation data. The *ALL-NEW* Educator Dashboard provides a single management system where teachers and leaders can **run reports**, **create and assign assessments and practice,** and **receive ongoing professional learning support**.

QUICK ACCESS TO REAL-TIME, ACTIONABLE DATA

NOTIFICATIONS
Daily notifications of recent activities across all classes

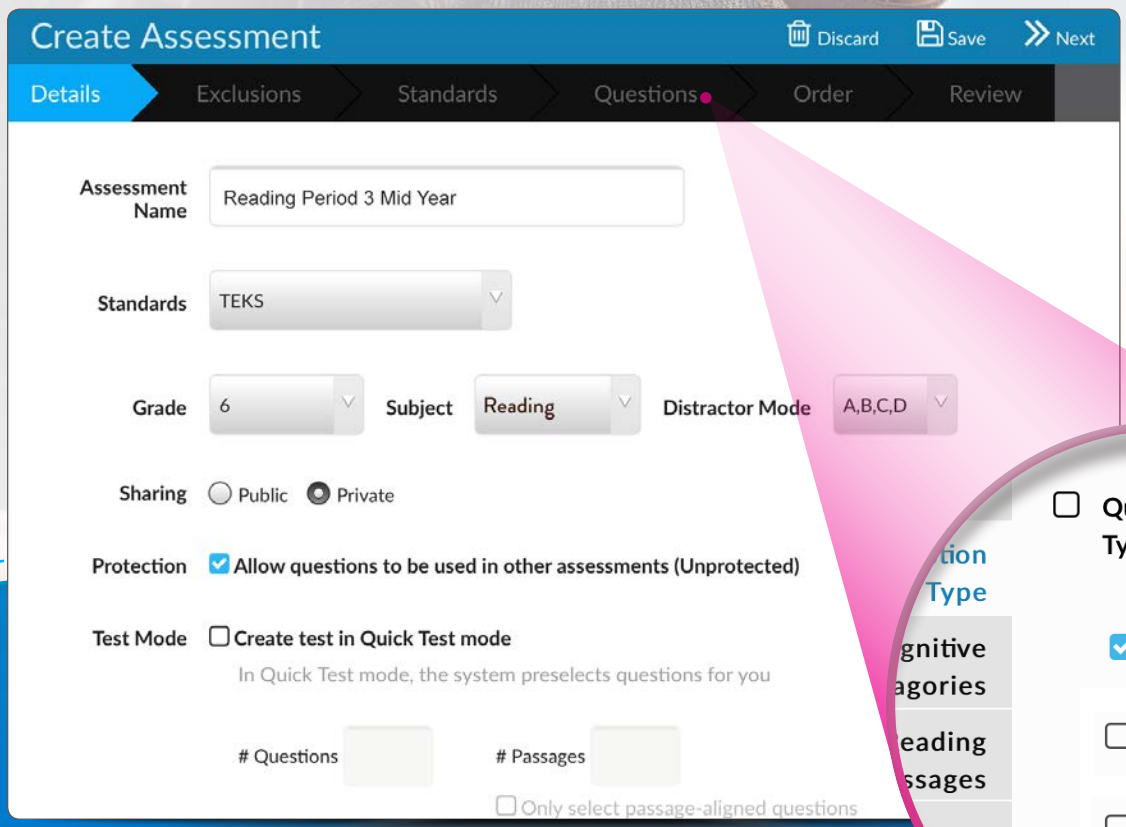
PROFESSIONAL LEARNING
Ongoing professional learning opportunities available to all users

DATA SNAPSHOTS
At-a-glance details highlight essential performance and implementation data



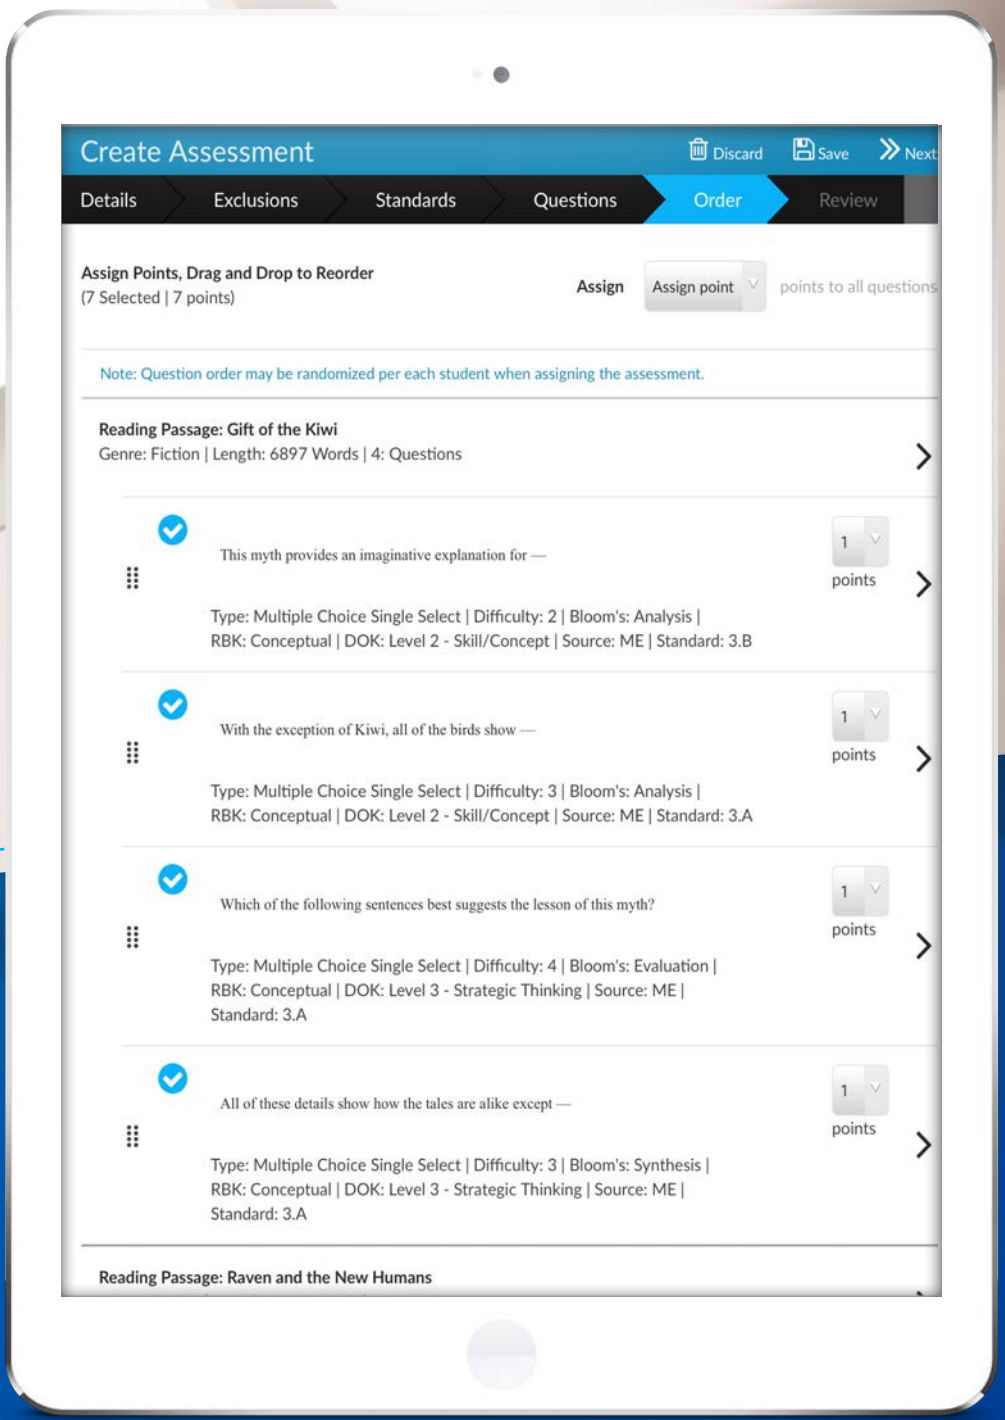
CREATE & CUSTOMIZE TEKS-BASED ASSESSMENTS

Measuring Up Live 2.0 features an easy way for you to customize assessment types, including formative, summative, and benchmark, using high-quality, TEKS-aligned test questions that mimic the look and feel of the STAAR. Educators can choose details such as the standard, subject being assessed, relevant grade level for the particular assessment, and more.



ASSIGN TARGETED ASSESSMENTS

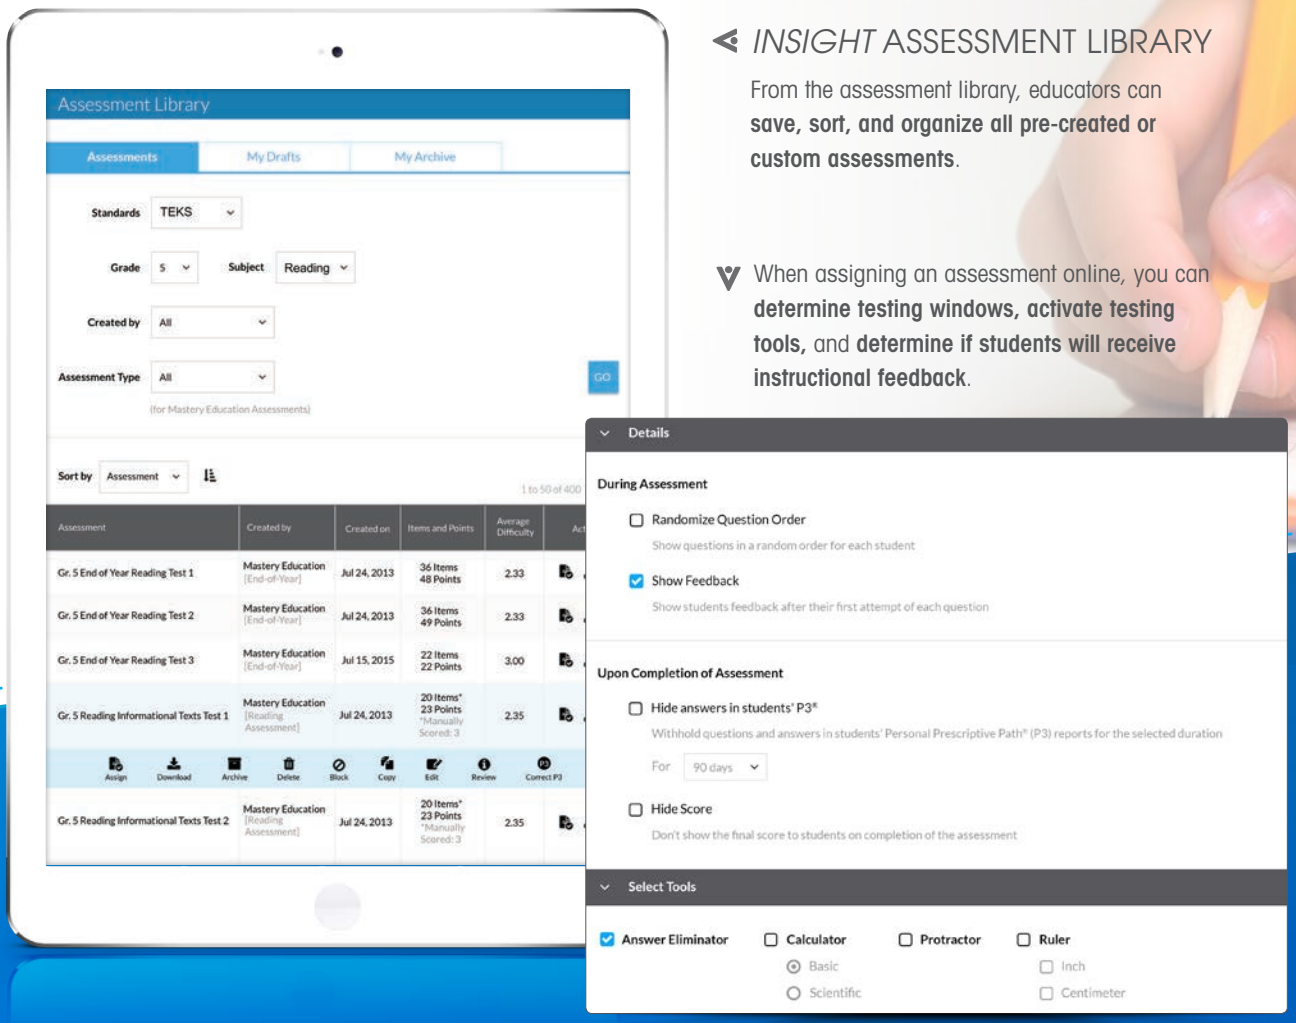
Your students can be assigned assessments by class, group, or individual, and have the flexibility to work at their own pace based on the timeframe set by their administrator or teacher.



- **Filters allow educators to choose questions** based on standard, item type, reading passage, and cognitive level.
- **Educators can assign specific point values** to individual items, place questions in a specific order, or randomize order if a student is going to be taking the assessment online.

CUSTOM STAAR PRACTICE BUILDS STUDENT CONFIDENCE

Measuring Up Insight **includes an assessment library, complete with pre-created assessments aligned to the STAAR. You can also build upon your library by customizing or creating your own assessments.**



INSIGHT ASSESSMENT LIBRARY

From the assessment library, educators can **save, sort, and organize all pre-created or custom assessments**.

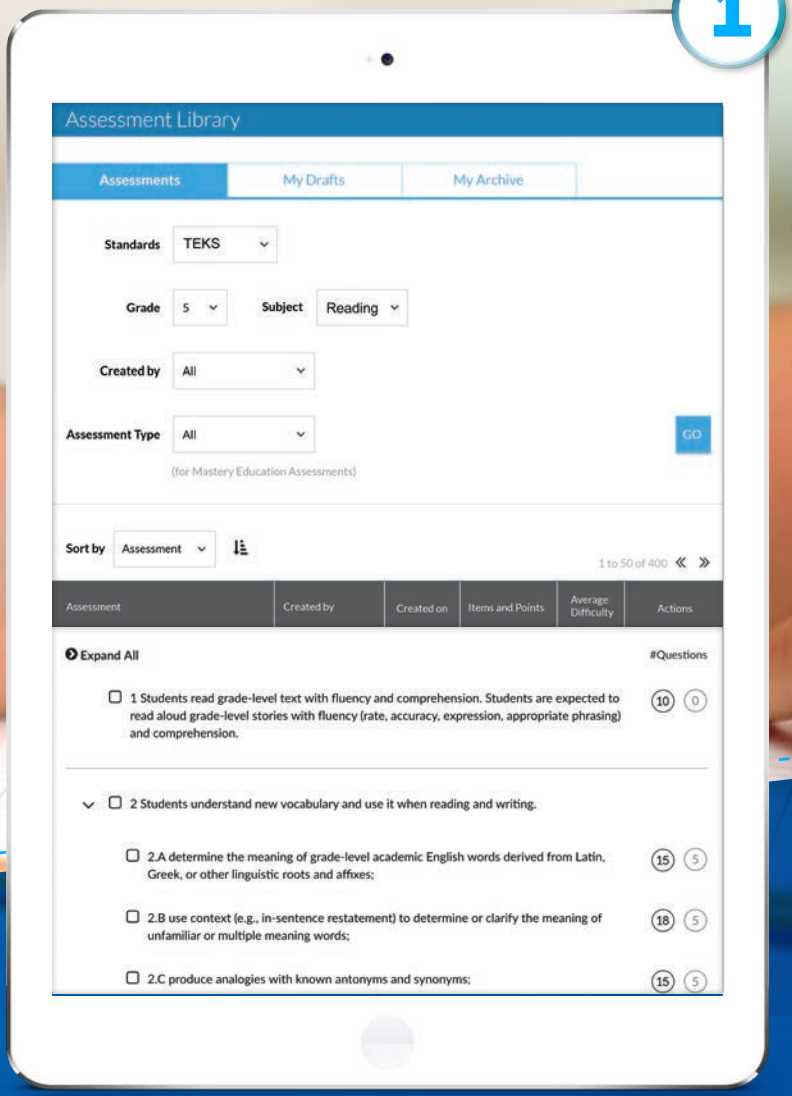
When assigning an assessment online, you can **determine testing windows, activate testing tools,** and **determine if students will receive instructional feedback**.

Measuring Up insight ITEM BANK

CREATE AND PRINT YOUR OWN TEKS-BASED ASSESSMENTS

The *Measuring Up Insight* Item Bank is available for a school site license to create and print Reading, Mathematics, and Science assessments in Grades 1–8+ and includes access to higher-level questions that match the rigor of the STAAR assessments.

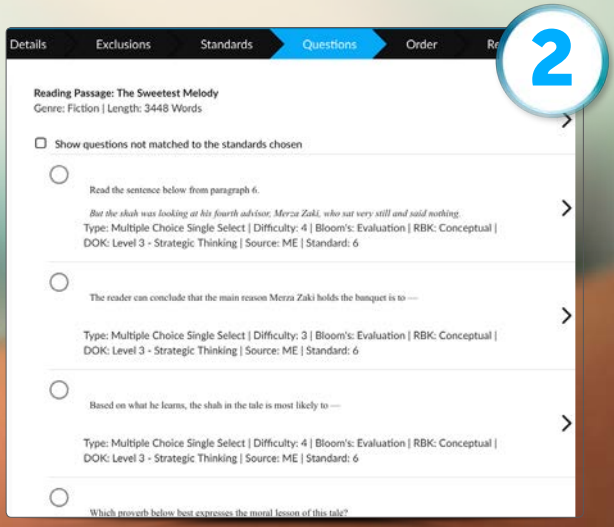
1



SELECT THE TEKS YOU WISH TO ASSESS

Choose from our robust item bank with more than 60,000 STAAR-style questions organized by TEKS and student expectation.

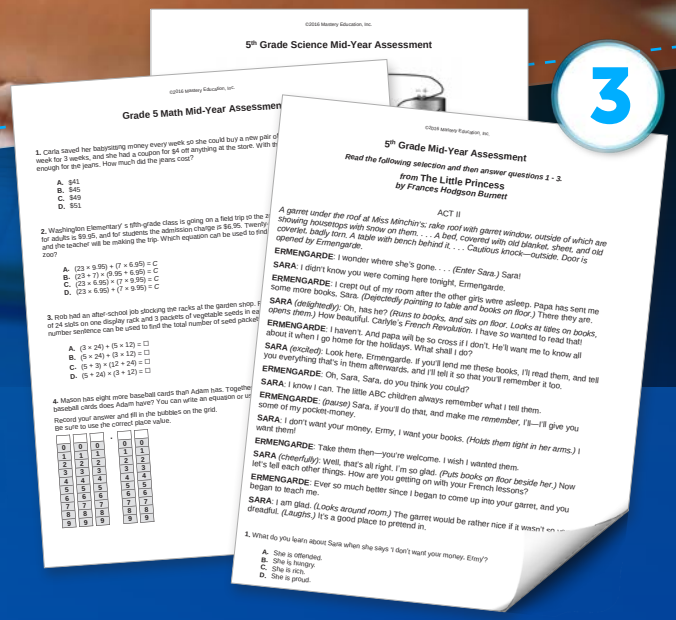
2



CUSTOMIZE YOUR ASSESSMENT

Choose questions from hundreds of reading passages that span a wide range of genres and text types.

3

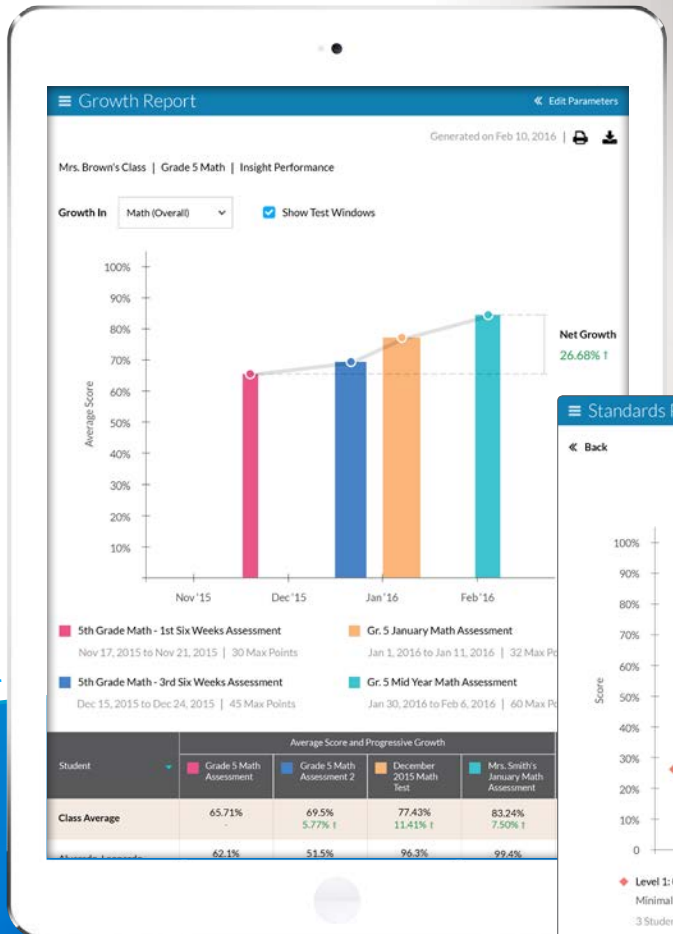


PRINT YOUR FINISHED TEST

Your custom assessment is completed with difficulty levels identified for all questions.

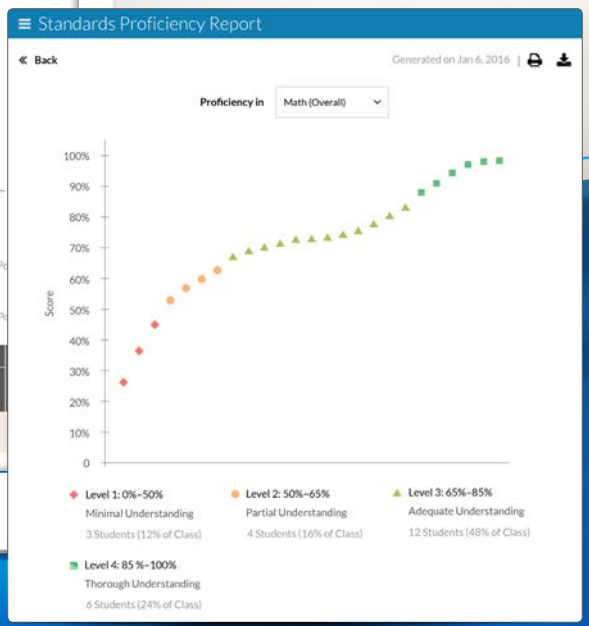
GET EVEN MORE ACCESS TO ACTIONABLE DATA

With *Measuring Up Live* 2.0 analytics, you can access real-time, actionable data to drive TEKS-based instruction, group students, and connect with families. Clear, concise reporting allows all stakeholders to have a pulse on student performance at the standard, sub-learning, and specific question level.



MEASURE PERFORMANCE

The all-new **Growth Report** shows results over time in an individual skill category. This report can be created using TEKS, from specific tests.



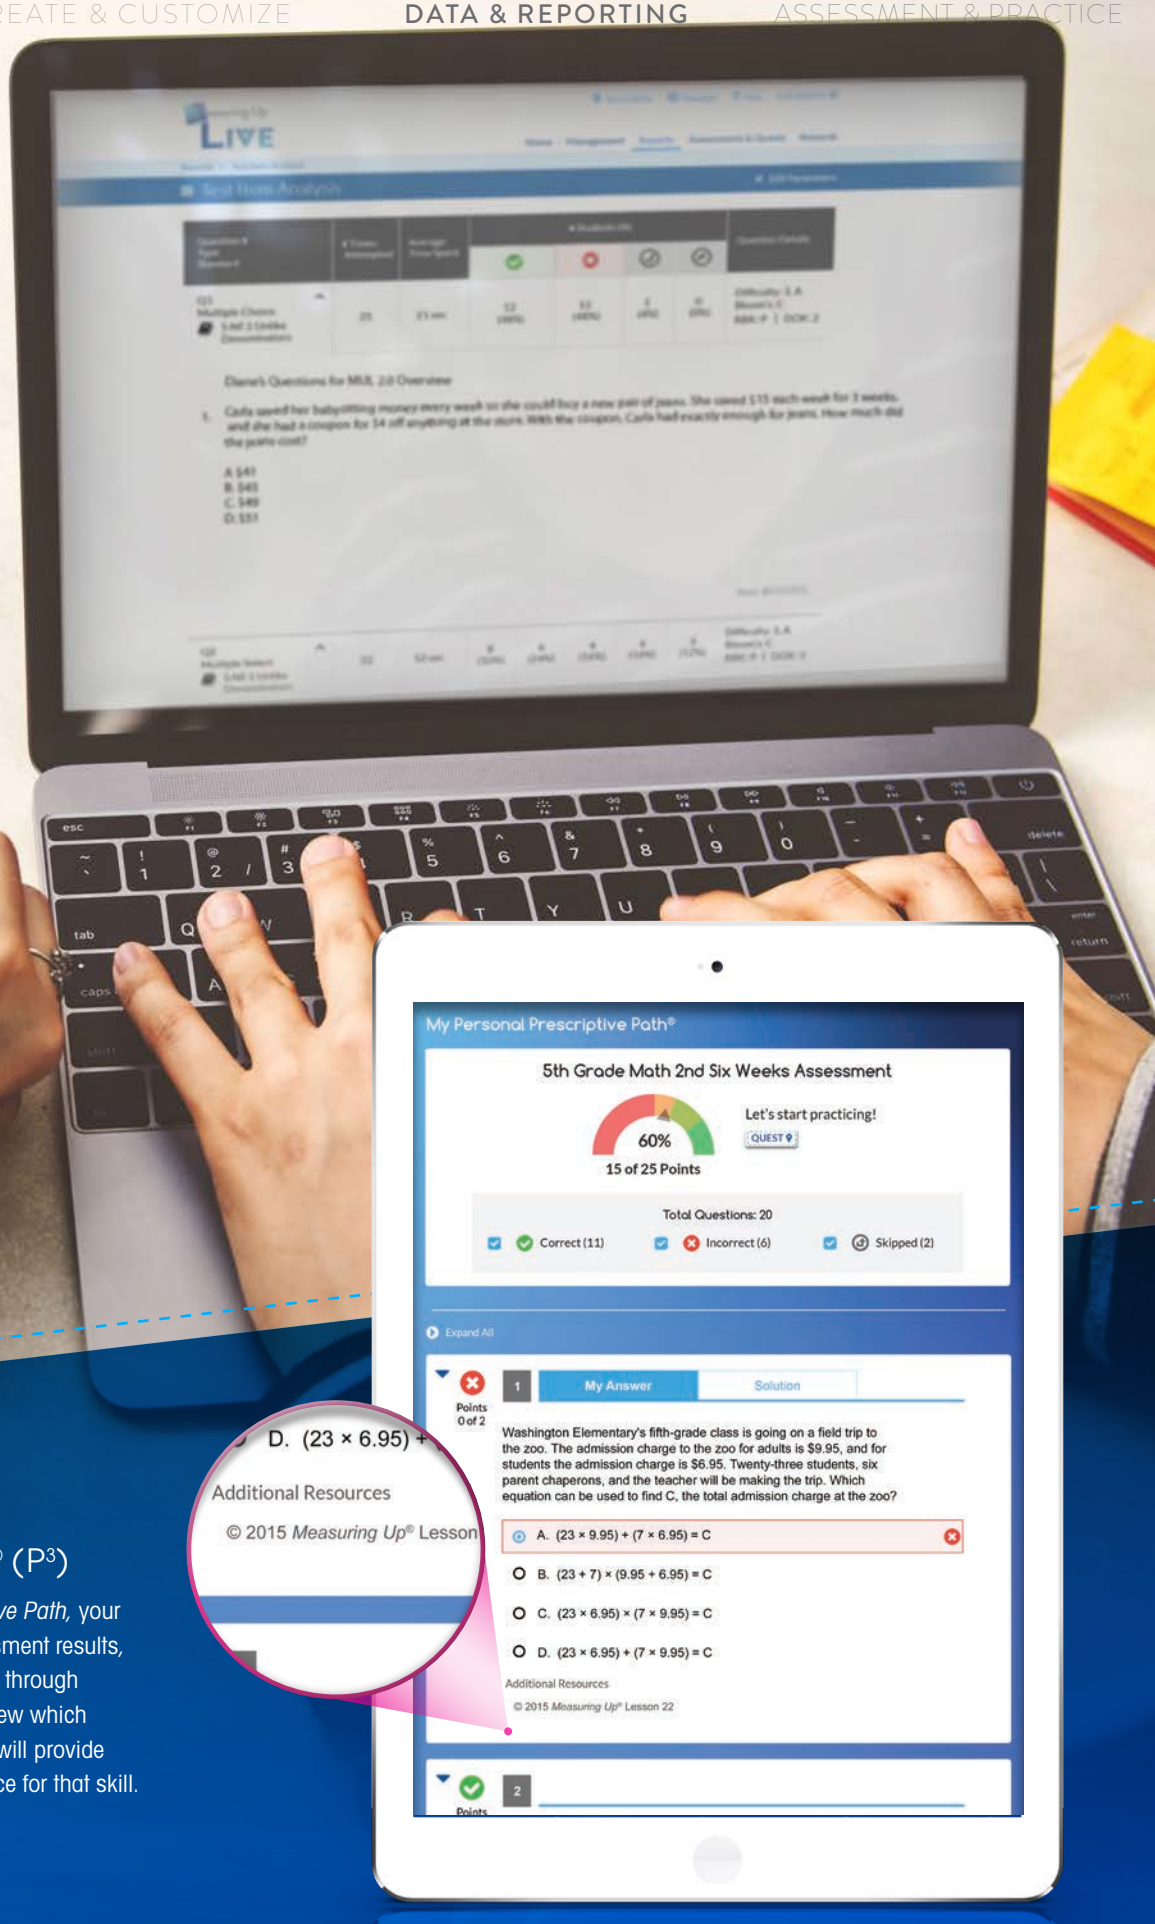
The **Standards Proficiency** report shows how a student performed on an entire test, by standard, and by sub-learning objective.

TEST ITEM ANALYSIS

Educators can easily check the difficulty level of each test or item and will be able to understand how each student performs through detailed analysis of their responses.

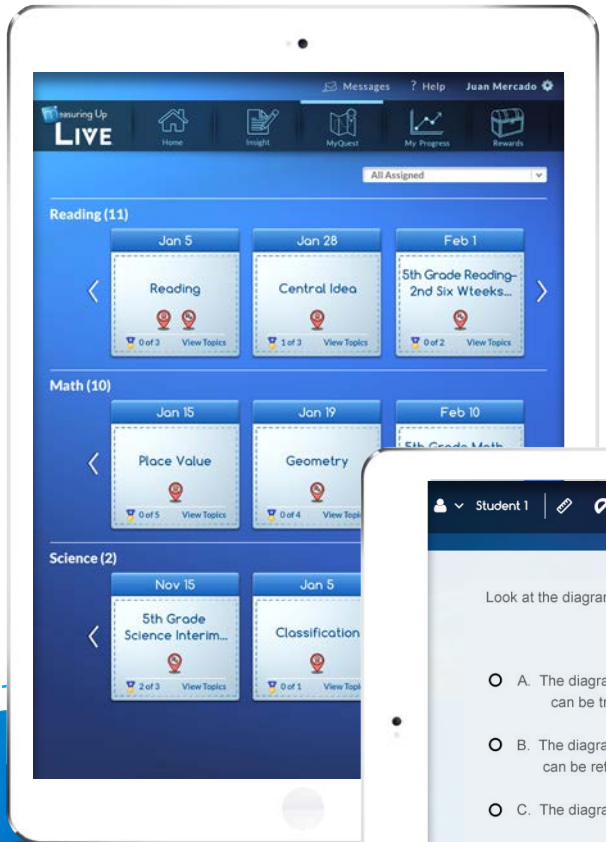
MY PERSONAL PRESCRIPTIVE PATH® (P³)

From the *My Personal Prescriptive Path,* your students can review their assessment results, embark on a personalized quest through standards-based *MyQuest,* or view which *Measuring Up* worktext lessons will provide additional instruction and practice for that skill.



THE LEARNING QUEST: A PERSONALIZED EXPERIENCE

Students embark on a TEKS-based quest that will pinpoint their individual knowledge—with a program that levels up or down based on their responses. With three ways to practice, students can be prescribed or assigned targeted review or can drive their own learning.



Within *MyQuest,* students take ownership of their learning by choosing their mode of practice with a **Quiz** or **Game Mode**.

INSIGHT PRESCRIBED

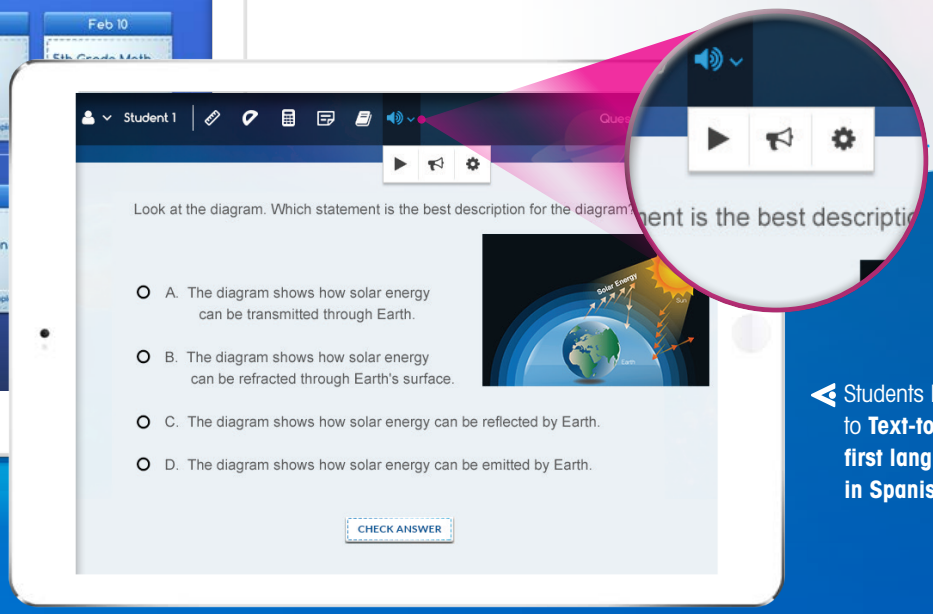
Students are prescribed individualized practice based on their *Insight* assessment results.

TEACHER ASSIGNED

Teachers can assign practice by class, group, or individual student.

OPEN QUESTING

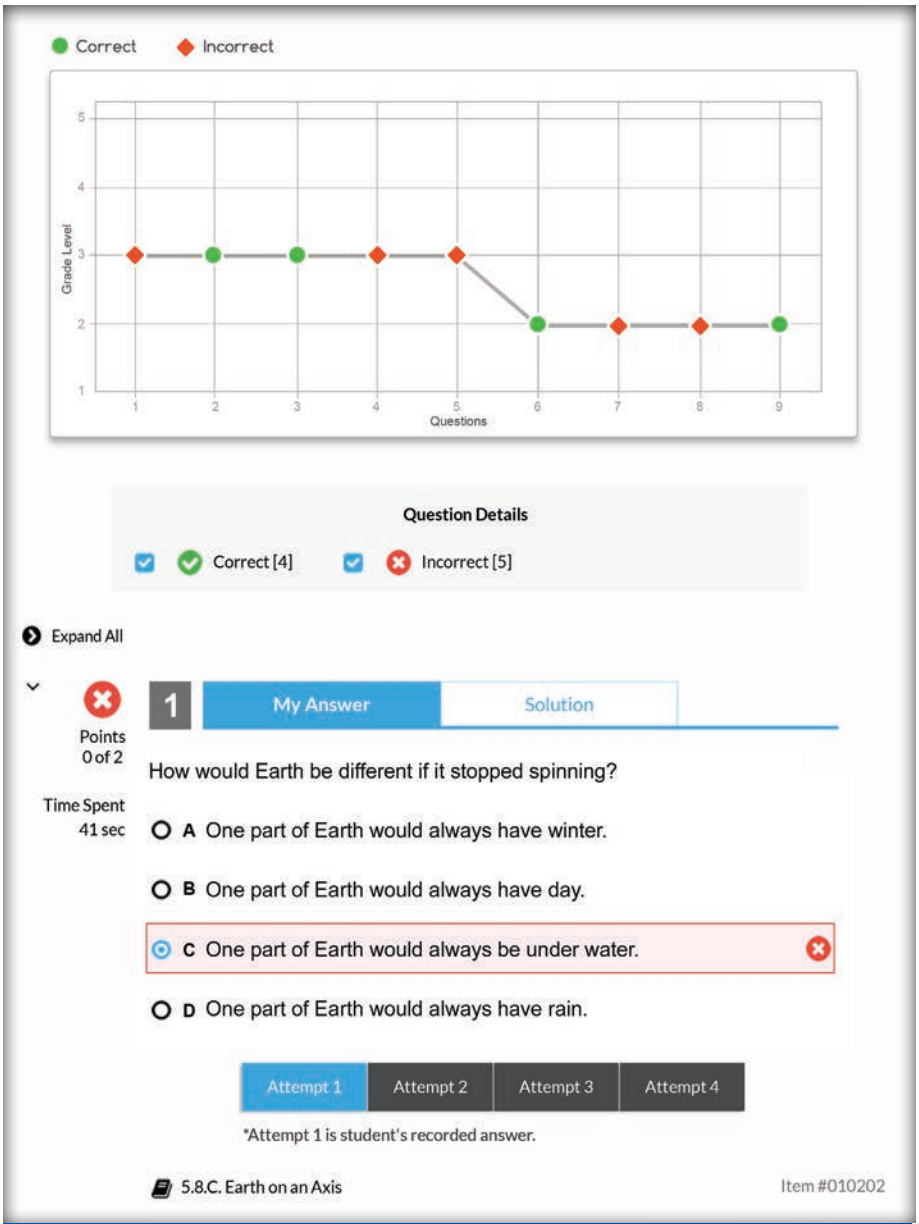
When activated by the teacher, students can decide their own standards-based practice.



Students have access to **Text-to-Speech** and **first language support in Spanish.**

TARGET THE NEEDS OF EVERY STUDENT

Measuring Up MyQuest features adaptive practice designed to help you target instruction and meet all students at their exact proficiency level. Educators receive detailed, student-specific information that helps them understand where each student is tracking.



Teachers have the ability to see how students level up or down within the program. They can also analyze what challenges students may be having by examining their individual responses.

MOTIVATE STUDENTS TO TAKE THE LEAD ON LEARNING!

Measuring Up Live 2.0 provides students with a dashboard that highlights the **skills they need to focus on and assignments they need to complete.** When students can see their achievements and witness their own success firsthand, they are **motivated to take ownership of their personal path to STAAR mastery.**

SNAPSHOTS TO CAPTIVATE YOUR STUDENTS

ACHIEVEMENTS

The achievements panel helps your students track their progress and stay motivated.

DEEP INSIGHT

Students stay on track with assessment due dates and get an at-a-glance view of their most recent assessments.

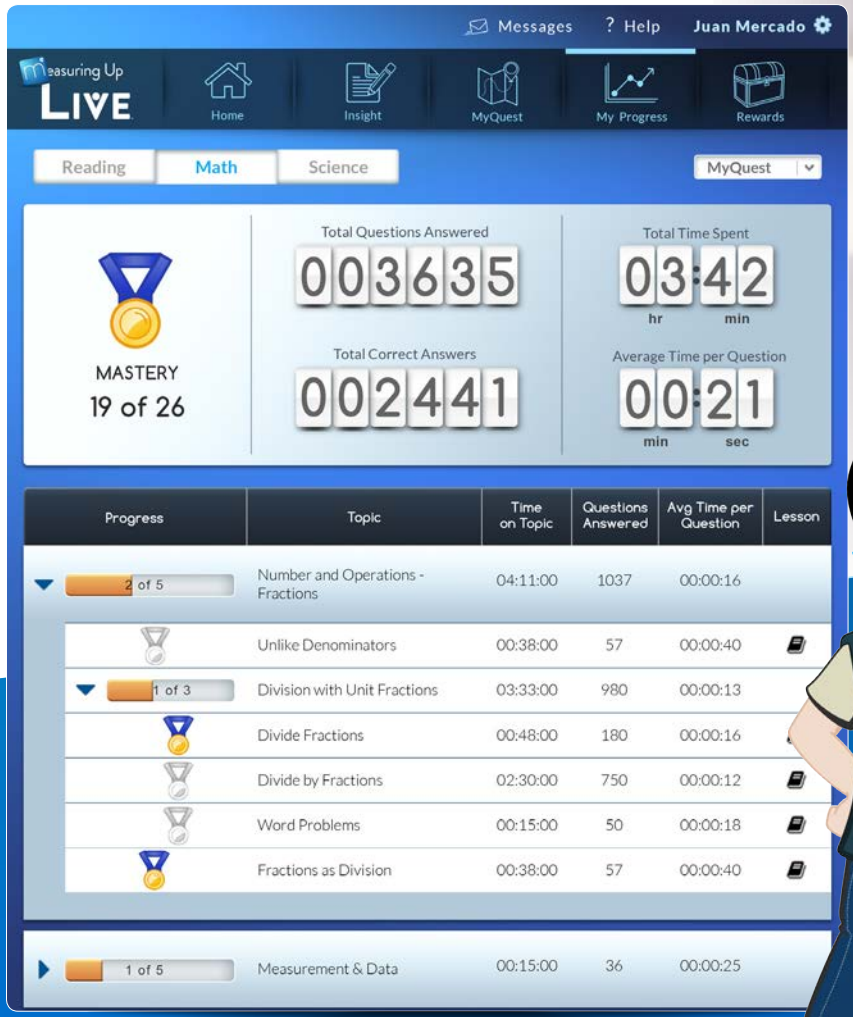
MYQUEST DATA

Through *MyQuest,* your students monitor their own progress, become self-motivated, and continue to challenge themselves.

STUDENTS DECIDE WHAT SUCCESS LOOKS LIKE!

Providing your students with access to their own performance data and insight into their individual learning goals lets them become active partners in the learning process. Students can create customizable avatars, helping to further personalize learning, build accountability, and, in their own unique way, personify success.

Through the *My Progress* tab, **students can view the number of standards they've mastered**, as well as other encouraging results, in real-time.



- Students get to personalize their very own avatar within **a built-in rewards system**. Children have the ability to earn tokens, medals, and badges, receive teacher-generated certificates, and play games in *MyQuest*.

Measuring Up Live 2.0 is A FLEXIBLE FIT for **ALL CORE INSTRUCTION!**

Measuring Up Live 2.0 is an online, supplemental program that allows you to track your students' progress towards standards mastery and provide them with an authentic testing experience to practice for the STAAR.

Measuring Up Live 2.0 can be used for:

- FORMATIVE AND SUMMATIVE ASSESSMENT
- CURRICULUM-BASED ASSESSMENTS
- ONGOING STANDARDS PRACTICE
- BEFORE- AND AFTER-SCHOOL PROGRAMS
- SUMMER SCHOOL
- HOMEWORK
